BREAKING — US intelligence warned Israel of a potential conflict in Gaza days before the attack, CNN reports

- One update from September 28 warned, based on multiple streams of intelligence, that Hamas was poised to escalate rocket-attacks across the border.
- An October 5 wire from the CIA warned generally of the increasing possibility of violence by Hamas.
- Then, on October 6, the day before the attack, US officials circulated reporting from Israel indicating unusual activity by Hamas — indications that are now clear: an attack was imminent.

There is no moral case to be made for the actions of the colonial apartheid regime. This is a rebellion of slaves against an evil and illegitimate master. Those who demonize Hamas, Islamic Jihad, and their allies to appease western elites are unwittingly aiding ethnic cleansing.

BREAKING: Iran sent a message to Israel via the UN stressing that it does not want further escalation in the Hamas-Israel war, but that it will have to intervene if the Israeli operation in Gaza continues.

MY THOUGHTS:

Iran getting involved is a red I'ne no one should want to cross, unless you're Senator Graham.

It seems the world is trying to de-escalate, and trying to figure out how far Israel should go in response to the attacks by Hamas.

Where should the world draw the line on what an appropriate response should be?

Or, the more important question, where does IRAN draw that line?

JUST IN: The Iraqi Parliament: has called for the activation of the Arab Defense Treaty in response to the ongoing Israeli actions in Gaza.

What is the Arab Defense Treaty?

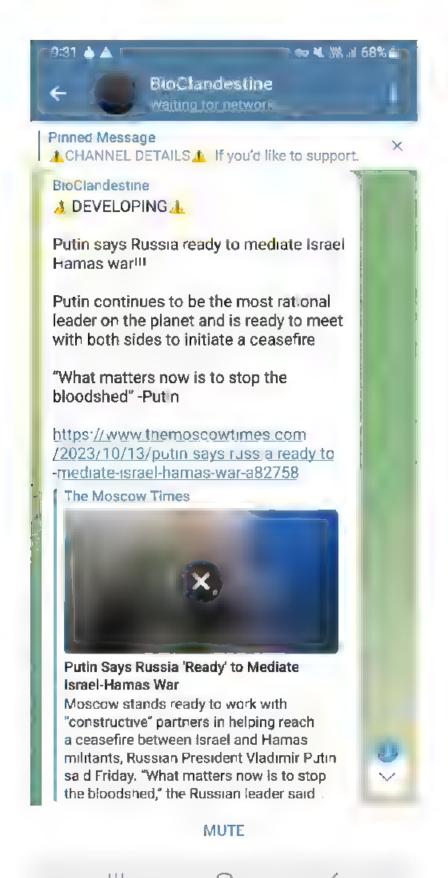

The Arab Defense Treaty was established in 1950, bringing together several Arab nations with the shared aim of promoting collective defense in the event of aggression against any member state.

When this treaty is invoked, it could lead to collective military action, similar to NATO, with other member states offering military support, such as troops, equipment, or logistical assistance.

What Are the Consequences?

It's important to note that this treaty has seen limited use in the past and remains untested. Largely rooted in a Pan-Arab igoglogy, which was more influential at

Yes Alan, that's exactly what the climate totalitarians are suggesting, because none of this really has anything to do with saving the planet, and everything to do with deliberately wiping out the middle class, drastically reducing our standard of living and exerting absolute totalitarian control over every aspect of our lives, under the mere guise of "saving the planet".

German MEP, Christine Anderson: Governments around the world used outright psychological warfare targeted even at children—to terrify their populations into submission with Covid tyranny, in a way that was globally coordinated.

"In Germany, there was a manual on how to get the people to do what the government wanted them to do to adhere to these restrictions. They outlined [that] even though kids are at no risk of Covid, we have to make them afraid [that] if they catch it, and then they infect their grandparents, they're responsible for having killed their grandparents."

And the exact same techniques are now being used to terrify everyone into submission with Net Zero/climate tyranny.

BREAKING NEWS: China Sides With Hamas and Cails For Israel To Back Down Saying "Israel's actions have gone beyond self-defense"

China's public position here indicates they currently see the U.S. as extremely weak with Joe Biden as president.

4 days ago China sent fighter jets to monitor and warn a U.S. Navy patrol aircraft that flew through the Taiwan Strait.

They are aggressively setting the stage for an invasion of Taiwan before Joe Biden is removed from office in 2024. If they invade, WW3 will be unofficially underway and de-escalation will become an extremely difficult task. All hell may break loose!

By the time Joe Biden's reign is over, it may go down as the most destructive/damaging 4-year period in modern history.

Putin on Xi Jinping: "He does not make short-term decisions based on some current situation." He assesses the situation, analyzes and looks to the future. This is very important, it is what separates a real world leader from the people we call temporary workers who come for five minutes to show themselves on an international platform and also d'sappear unnoticed. President Xi Jinping is a completely different person. He is a thorough, calm, but businesslike and reliable partner. If we agree something with him, we can be sure that the agreement will be fulfilled, both on one side and on the other."

Israeli soldiers "undoubtedy" shot Israeli civilians, according to a survivor of the Kibbutz raid.

Israeli forces 'eliminated everyone, including the hostages." according to Yasmin Porat, who had fled the nearby Nova rave stated

"If any problem is being presented as a global cris's, then it is a scam."

Nick Hudson (@NickHudsonCT) eloquently summarises the parallels between the #CovidScam and the #ClimateScam.

"The pattern that we are confronted with is really the fabrication of global crises: The presentation eitner of non-existent problems, or small local problems as being general global crises. That fabrication, followed by the assertion that the only solutions that are permissible are global ones that require a global authority, global control. That is the general pattern that we are up against. The Covid policy response was one of those, [and] the climate change crisis is another example."

Governments around the world used outright psychological warfare—
targeted even at children—to terrify their populations into submission with Covid tyranny, in a way that was globally coordinated.

"In Germany, there was a manual on how to get the people to do what the government wanted them to do to adnere to these restrictions. They outlined [that] even though kids are at no risk of Covid, we have to make them afraid [that] if they catch it, and then they infect their grandparents, they're responsible for having killed their grandparents."

And the exact same techniques are now being used to terrify everyone into submission with Net Zero/climate tyranny.

The smart money knows there's a real risk that Pfizer could be sued in bankruptcy for misleading or deceptive conduct in trade or commerce – something I warned of over 18 months ago.

particle sizes tested yielded a robust immune response in non-human primates (NHP) 1.

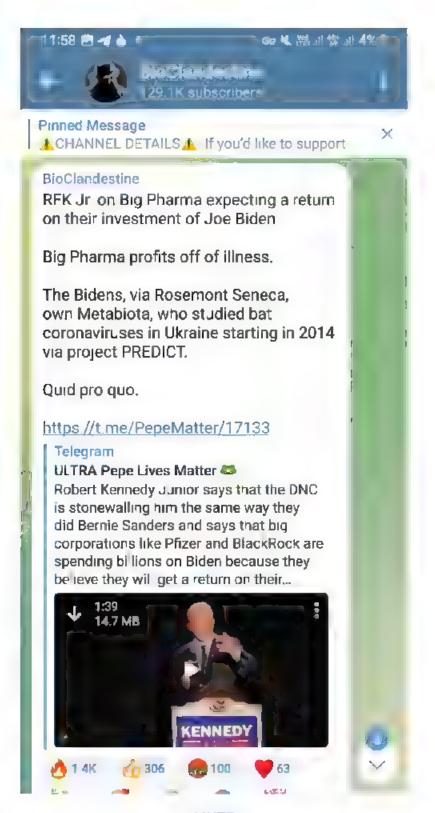

It is worth noting that the specific size range of mRNA nanoparticles can vary depending on the study and the specific application. For example, in previous studies and FDA-approved mRNA vaccines, lipid nanoparticles with sizes around 70 nm to 100 nm were used 2. Other studies have characterized nanoparticles within the 2-100 nm size range and found that they can alter signaling processes essential for basic cell functions 3.

Overall, the size of mRNA nanoparticles is an important factor to consider in vaccine development and delivery. Different sizes may have varying effects on immunogenicity and other biological processes. Further research is needed to fully understand the relationship between nanoparticle size and mRNA vaccine performance.

I hope this information is helpful! Let me know f you have any further questions.

mRNA nanoparticles come in various sizes, and the size of these nanoparticles can have an impact on their immunogenicity and performance as vaccines. A study on the impact of lipid nanoparticle (LNP) size on mRNA vaccine immunogenicity revealed a relationship between LNP particle size and immunogenicity in mice using LNPs of various compositions 1. The study found that small d'ameter LNPs were substantially less immunogenic in mice compared to larger LNPs. However, all particle sizes tested yielded a robust immune response in non-human primates (NHP) 1.

It is worth noting that the specific size range of mRNA nanoparticles can vary depending on the study and the specific application. Politics and 'freedom of choice" is an ILLUSION and it has been for MANY DECADES.

They CREATED the "Us vs Them" & "R vs D" paradigm so that we would continuously FIGHT one another. It was ALWAYS their strategy to "divide and conquer" Meanwhile, they have been slow y making America submit to COMMUNISM.

The G.obalist "powers that be" & robber-barrons that have TOTALLY HIJACKED our Govt at EVERY level are steering this country into the ground because AMERICA MUST FALL so that they can have their New World Order (One World Government). Now, they are in the FINAL stages, and close to accomplishing that goal.

It's really as simple as that.

If you think a change in politicians will make a difference, you aren't tuned in.

incident. Not surprising because Hamas
rockets are \$300-500 homemade devices,
with no guidance systems and cheap
parts. Very sad to see this happen. More
sad to see Hamas continue to fire rockets
even after one of them blew up their own

Critics tore into President Joe Biden as being responsible for Hamas' assault on Israel Saturday by providing billions to Iran, which funds and supports the terrorist group.

In September, the Biden administration allowed the transfer of \$6 billion in frozen assets to Iran — which funds and supports Hamas — in exchange for the release of five Americans.

The White House stressed at the time that Iran could only use the funds for "food, medicine, medical equipment that would not have a dual military use" — but Iran waved off the terms and publicly boasted they would deploy the cash "wherever we need it."

GOP presidential candidates quickly slammed the Biden administration as playing a role in Saturday's unprecedented attacks.

Florida Governor Ron DeSantis said, "Iran has helped fund this war against Israel, and Joe Biden's policies that have gone easy on Iran has helped to fill their coffers. Israel is now paying the price for those policies. We're going to stand with the State of Israel, they need to root out Hamas and we need to stand up to Iran."
